GRADUATE DEGREE PROGRAM

HYBRID LEARNING

At NETPREP Academy our Graduate Degree Program Hybrid Learning sets us apart as our students will be able to graduate by successfully completing our new-age business training program focusing on education and apprenticeship, therefore having a unit of measurement for us to angle through completed tasks and coursework that can earn you a degree from NETPREP Academy.

The type of new age learning of hybrid offered at NETPREP Academy, which was popularized during the coronavirus pandemic will allow our local and surrounding area students to have the flexibility of online, remote, and face-to-face learning. The purpose of our hybrid courses is to take advantage of the best features of online, remote, and in-class learning, which all are effective.

What's more, our new age curriculum is cutting edge. It's a mixture of informative learning and on-the-job business training that equips our students with the knowledge and understanding they need to be successful in their respective business of choice.

'64% of academic leaders believe that hybrid learning has the potential to improve student learning outcomes.
